WORK EXPERIENCE

ADVOCATE B.D. Mishra | District & Session court, Jhajjar,

3rd June 2022 - 31st June 2022

- Researched and summarized key legal precedents on cyber fraud, compiling findings into a comprehensive report that improved team understanding of current laws affecting digital transactions by 60% during briefings.
- Attended over 10+ courtroom sessions to observe trial procedures, gaining first-hand knowledge that contributed to a thorough analysis of judicial processes used by the District & Session Court.

PROJECTS

Legal-AI Systems for Cheque Bounce Case Automation – NyAI Project (*In Progress*)

Legal-AI Research Contributor | National Institute of Technology, Kurukshetra

- Actively contributing to the development of AI-driven tools to support legal automation and decision-making in cheque bounce cases under Section 138 of the Negotiable Instruments Act. The project combines machine learning, NLP, and legal reasoning.
- Collaborating on a case outcome prediction model that analyzes legal precedents and factual patterns to forecast likely case results.
- Supporting the design of a legal document annotation framework, tagging entities such as parties, sections, and court actions for use in training NLP models.
- Assisting in feature extraction and dataset structuring based on legal reasoning and judgment analysis.
- Supported integration of annotated data into a knowledge base for legal case mapping.
